Election/Restrictions

Applicant's election without traverse of Group I, claims 1-17 and 25-31 in the reply filed on 2/01/2007 is acknowledged. Claims 18-24 have been cancelled. Claims are pending in the application.

However, Applicants did not elect a **single** disclosed species from **each** group (A) and (B).

Claim 1 of Group I is generic to a plurality of disclosed patentably distinct species of:

(A) a coupling agent: (i) a coupling agent comprising **acetyl chloride** (Claims 2-3), (ii) a coupling agent comprising **succinyl chloride** (Claims 4-5), (iii) a coupling agent comprising **phosgene** (Claims 4-5), (iii) a coupling agent comprising *both* acetyl chloride and phosgene (Claims 4-5), (iv) a **silane** coupling agent comprising a thiol cap (Claims 12-17, 25-31);

(B) a sealing agent: (i) a sealing agent comprising a **crosslinking agent** (Claims 8-9), (ii) a sealing agent comprising a **capping agent** (Claims 10-11).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of (A) and (B), even though this requirement is traversed.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
